Dear Board of Commissioners,

I have been informed that my term of service on the Opioid Settlement Task Force will end this month. I am formally submitting this letter to respectfully request consideration for continuing to serve on the task force for another year.

I believe my past work experience and knowledge would continue to be beneficial to the task force and its efforts. I would appreciate the opportunity to continue contributing and serving the community in this capacity.

I have included my contact information should you have any questions or need any additional information.

Thank you for your time and consideration.

Sincerely,

Dianna Herlik

Unpaved shall have a minimum width of 50 feet with an additional 25 feet minimum width on each side clear of obstructions. Paved runways shall have a minimum width of 40 feet with an additional 30 feet minimum width on each side clear of obstructions.
- ☐ A 100-foot wide state primary surface for each runway clear of all obstructions (at least 100' but not less than width of rwy).
- ☐ A rectangular state approach surface with a minimum width of 100 feet and a length of 5000 feet. The width of the state approach surface shall be at least as wide as the width of the runway. The state approach surface extends for a horizontal distance of 5000 ft at a 20:1 slope including 15 ft clearance over roads, 17 ft clearance over interstate highways, 23 ft clearance over railroads, and 25 ft clearance over property lines. The state approach surface begins at the runway end for unpaved runways.
- ☐ A permanent monument located on the centerline at or beyond each end of the runway.

The following pilot aids are maintained:

- ☐ (A) Paved runways marked with centerline and numbering in accordance with Federal Aviation Administration standards; unpaved runways marked in accordance with Michigan Aeronautics Commission standards.
- ☐ (B) A windcone.
- ☐ (C) Airports with right traffic patterns shall have a segmented circle with traffic patterns indicators
- ☐ (D) Runway lighting, if available for public use, shall conform to Federal Aviation Administration standard color and layout.

The airport provides the following:

- ☐ (E) Auto parking area, itinerant aircraft parking, marked entranced from a public road.

GENERAL UTILITY

- ☑ Airport has an airport manager licensed by the commission.
- ☑ Runway with an 1,800-foot landing length in each direction from a clear appropriate slope of 20:1 and unpaved runway with a minimum width of 100 feet. Paved runways shall have a minimum width of 40.
- ☑ A 250-foot state primary surface for each runway clear of all obstructions.
- ☑ A state approach surface for each runway end that extends outward and upward from the end of the state primary surface for a distance of 5,000 ft. The shape of this approach surface is trapezoid with a width of 250 ft at the runway end and expands uniformly to a width of 1,250 ft. The state approach surface extends for a horizontal distance of 5,000 ft at a slope of 20:1, including 15 ft clearance over roads, 17 ft clearance over interstate highways, 23 ft clearance over railroads, and 25 ft clearance over property lines. The state approach surface begins at the runway end for unpaved runways.
- ☑ A permanent monument located on the centerline at or beyond each end of the runway.

The following pilot aids are maintained:

- ☑ (A) Paved runways shall have centerline marking and runway numbering conforming to the published standards of the Federal Aviation Administration.
- ☑ (B) Unpaved runways marked in accordance with commission standards.
- ☑ (C) Any crosswind runway(s) must meet minimum requirements set for a basic utility airport.
- ☑ (D) A lighted windcone.
- ☑ (E) Runway lighting shall be available from sunset to sunrise daily. Lighting configuration shall conform to the requirements of the Federal Aviation Administration regarding standard color and layout.
- ☑ (F) Airports with right traffic patterns shall have a segmented circle with traffic pattern indicators.

The airport provides the following:

- ☐ (A) An administration building or terminal building with sanitary facilities available to the public.
- ☑ (B) Adequate means to deter the unauthorized or inadvertent access to the aircraft operations area.
- ☑ (C) A telephone shall be available to the public 24 hours daily on the airport and its location shall be clearly indicated.
- ☑ (D) A formally adopted emergency service plan prepared by the airport owner.
- ☑ (E) Airport rules and regulations that are adopted by the airport owner and available to the public.
- ☑ (F) Itinerant aircraft parking and tie downs, including adequate ropes, chains, or equivalent.
- ☑ (G) Auto parking area, marked entrance from a public road.

AIR CARRIER

- ☐ Airport employs an airport manager licensed by the commission.
- ☐ A valid airport operating certificate, or a limited airport operating certificate, issued by the Federal Aviation Administration regulations.

SEAPLANE BASE

- ☐ No License Required

HELIPORT

- ☐ Employ an airport manager licensed by the commission.
- ☐ A length and width of the landing area of at least 1.5 times the length of the helicopter using the facility.
- ☐ At least two heliport approach surfaces free of obstructions. The heliport approach surface begins at the end of the heliport landing area with the same width as the landing area, and extending outward and upward for a horizontal distance of 4,000 feet where its width is 500 feet. The slope of the approach surface is 8 to 1. Two of the heliport approach surfaces provided shall be located to provide that their centerlines form an arc of not less than 90 degrees at their intersection. Each heliport approach surface shall provide an area suitable for an emergency landing during takeoff, climb-out, and landing.

The airport provides the following:

- ☐ If a heliport is located on an elevated structure or roof, then the heliport shall comply with local building and fire codes. The landing area shall be designed to support 1.5 times the maximum gross weight of the largest helicopter authorized to use the heliport. When applying for a license, the applicant shall file a certificate signed by a professional engineer registered in this state, certifying structural compliance of the heliport.
- ☐ An administration building or terminal building with sanitary facilities available to the public.
- ☐ A windcone or means of identifying wind direction.
- ☐ Ground level heliports shall have operational areas fenced or marked with caution signs to prevent the inadvertent or unauthorized entry of persons or vehicles.
- ☐ Signs indicating a heliport, located on its perimeter.
- ☐ Maintain clearly marked automobile parking area, itinerant aircraft parking area, entrance from a public rd.
- ☐ A telephone that is available to the public 24 hours daily on the heliport and the telephone's location clearly indicated.

UNIMPROVED AIRSTRIP LICENSE STANDARDS

An unimproved airstrip public airport license shall be granted if all the following minimum services and facilities are provided and maintained:

- (A) Have an airport manager licensed by the commission
- ☐ (B) At least 1 runway equipped with a 1,200-foot landing length in each direction from a clear approach slope of 20:1 and a 50-foot usable width with an additional 25-foot minimum width on each side which is free of obstructions.
- ☐ (C) An approach slope at a ratio of 20:1 with a width of not less than 100 feet. The approach slope shall be based on a clearance of all objects within the approach area, including a roadway clearance of 15 feet or 17 feet over an interstate highway and a railway clearance of 23 feet. Runway lights shall not be considered obstructions in the runway width required to be free of obstructions.
- ☐ A permanent monument established on the centerline at or beyond each end of the runway.
- ☐ A run way that is well defined by mowing, use of markers, or low peripheral farming with clearly marked displaced thresholds.
- ☐ A person using an unimproved airstrip shall do so at his or her own risk.
- ☐ No commercial operations may be based at an unimproved airstrip airport.
